

## The Lifecycle of Electronic Resources Series

The Lifecycle of Electronic Resources Series will help you to understand, manage and deal with electronic resources. Each self-paced class lasts two weeks and can be taken separately. The classes are taught in the ANGEL online learning environment, and participation in class discussions is highly encouraged. Students are strongly encouraged to participate with online discussions and assignments. Each class will take approximately 4-8 hours to complete.

### 1.Acquiring Electronic Resources: 9/14-9/25 [Register Here](#)

- Assessing needs; collection/curriculum fit (i.e. applying your collection development policy)
- Evaluations (Applying the results to the purchase decision)
- Budget (Getting the most for your money; comparison shopping)
- Price (Compare, Negotiate, Wheel and deal, Vendors, consortial agents)
- License (Reading/Understanding; deciding whether to negotiate)
- New orders, Renewals

### 2.Providing Access to Electronic Resources: 10/19-10/30 [Register Here](#)

- IP Address vs. ID/Password/User Registration
- Proxy Support
- OPAC
- Portals/Access Lists
- Authentication
- URL Maintenance
- Relations with institutional information infrastructure and ITS

### 3.Administering Electronic Resources: 11/9-11/20 [Register Here](#)
